

CHEK-LOK® ADAPTERS AND VALVES

Rego

Chek-Lok® Liquid Evacuation Adapter for 7590U and 7591U Valves

Application

Designed specifically for use with RegO® 7590U and 7591U Chek-Lok® Excess Flow Valves. Adapter's operating handle opens and closes equalizing stem in the Chek-Lok® valve. Eliminates gas flow through Chek-Lok® valve when installing or removing adapter. Use of RegO® adapter ensures proper connections and opening of the check mechanism.

7590U-20

Ordering Information

Adapter Number	Inlet Connection	Outlet Connection
7590U-20	1-5/8" F. UNF	3/4" F. NPT

Adapters for 7572FC and 7580FC Valves

Application

These adapters must be used to connect to the 7572FC and 7580FC Chek-Loks® to open the check mechanism properly. A built in nylon gasket provides a gas tight seal.
