3174-9P	3174-91	Cyclac	1-3/4" F. ACME
3174-9P	3174-93	Cyclac	1-3/4" F. ACME
A8016-9P	A8016-93	Nylon	1-3/4" F. ACME
—	1708C	Brass	F. POL (CGA 510)
—	7141FP	Brass	1-1/4" F. ACME
—	3175P	Brass	1-3/4" F. ACME
—	3184-90	Brass	2-1/4" F. ACME
3194-9	3194-90	Brass	3-1/4" F. ACME
5776*	—	Brass	3-1/4" F. ACME
—	A3184-90	Steel	2-1/4" F. ACME
—	A3194-90	Steel	3-1/4" F. ACME
A5776*	—	Steel	3-1/4" F. ACME

**A5776  
Reducer Coupling**

\* Reduces to 1-3/4" M. ACME.

## ACME Plugs

### Application

Specifically designed to withstand the everyday abuse given hose end valves on delivery trucks and hose end couplings on risers in bulk plants. These rugged plugs protect the coupling tip as well as prevent the entrance of dirt, dust, snow and rain. They also prevent possible gas contamination from these same sources. The heavily ribbed outer surface permits hand-tight make-up.

These plugs are available in a choice of four sizes which may be used with liquid as well as vapor type couplings. As a convenience, the nylon plugs have a retaining chain and ring to prevent loss during a transfer operation.

All are suitable for LPG or anhydrous ammonia service except the brass 5765PR, which is for LP-Gas only.

**Not intended for use as pressure closures.**

### Ordering Information

Item Number	Material	(M. ACME)	Chain & Ring Fits Pipe Size Up To:
C5763N	Nylon	1-1/4"	3/4"
C5765N	Nylon	1-3/4"	1-1/4"
5765PR	Brass	1-3/4"	Not Applicable
C5767N	Nylon	2-1/4"	1-1/4"
C5769N	Nylon	3-1/4"	2"

**C5769N**

## CGA 555 Swivel Adapters
