Ordering Information

Item Number	Description
HC-7	5" Press
160	Leads - Sold per 50 Piece
159	Wire - Sold per 50 Feet

Lock Caps

Application

An economical, safe method to lock LP gas valves. Hinged lock caps are made of durable cast aluminum and designed to be used with a pad lock.

Ordering Information

Item Number	Description
LC1	Encloses Acme thread & cap on filler valves. Has 1-1/2" shaft opening.
LC2	Encloses most 2" handwheels on service valves and cylinder valves found on recreational vehicles & gas grills
LC3	Encloses 2-1/2" handwheels such as those on old style service valves. Has overlap feature.

Valve Lock

Application

Secures POL valves from unauthorized hookups and eliminates the need for padlocks. Each valve lock comes complete with brass POL plug and O-ring plated steel lock collar, and a seal plug. Key included with order of 12.
